Stalemate is a situation in the game of chess where the player whose turn it is to move is not in check but has no legal move. The rules of chess provide that when stalemate occurs, the game ends as a draw.During the endgame, stalemate is a resource that can enable the player with the inferior position to draw the game rather than lose.In more complex positions, stalemate is much rarer .... 9 hours ago Chesslessonsfree.com Related Courses. We refer to Chess, a game that has become the center of attention of world championships and special television programs. Each copy selected for our Chess book list is in PDF format, to make it even easier for you to access the information. Chess as we know it today, was born in Europe in the .... Dec 26, 2013. Sep 08, 2021. Evolution of chess rules: The rules of chess have evolved much over the centuries, from the early chess-like games played in India in the 6th century. For much of that time, the rules varied from area to area. The modern rules first took form in Italy during the 13th century, giving more mobility to pieces that previously had more restricted movement (such as the queen and bishop)... Aug 09, 2021.
