i need to get version 3.0.3 of mod-makers tools installed to continue to operate my mod (dated. November 09). I already downloaded version 3.0.3, but can't figure out how to install it. I've tried to install it through the MS site and downloaded it and played with it in GTA, but it didn't help. Help? Unicode. Pare. Re: RJ113419 - Dungeons and Prisoners How can he say he holds the champion of all pornstars? He obviously (thanks, everyone), does not. Re: RJ113419 - Dungeons and Prisoners Wouldn't it be neat if instead of one key-pad you could press two? Re: RJ113419 - Dungeons and Prisoners I think I've got it, I just ticked the box to install from Rockstar's site, I'll give this a try, hopefully I'll be back with a video of my D&P beta by then!

Thanks, Eko Sutra Dimitris. What happened in late 2011? RJ113419 - Dungeons and Prisoners It's my understanding that rj113419 has been in the DAOS beta for a while, but there were no sexual or violence that I remember. What happened? I played it years back and got "crushed?" Well, I got crushed, but didn't get to see any sexual/violence at the time. Re: RJ113419 - Dungeons and Prisoners Haven't you been creating mods since the beginning? RJ113419 - Dungeons and Prisoners Have you ever played Dog Eat Dog with you and your man/family? I've never seen a hentai game with so much family violence. This is the 1st hentai game that I've played where I want to be on their side. It's the first game where I really felt that while the whole thing is fabricated it is such an accurate reflection of life. Getting off on an older woman is always great. RJ113419 - Dungeons and Prisoners I'm still waiting for my private message. rj113419 wrote:@ Private messages Not available.
