hoping to make top 5. If we have a great showing at the National Duals, I think we will end up moving up to #2. The schedule is out, and we are going to battle 4 of the teams on Friday, and 4 of the teams on Saturday. In the end, I think we will wind up fighting for top 5 again. Spontaneous fluctuations of gyromagnetic properties in the phase space of dynamical systems. Two-

---

parameter phase space based on the Hamming distance-temperature plane of a Gaussian Boolean automaton is developed to quantify the spontaneous fluctuations of gyromagnetic properties in the phase space of a system. An intrinsic mechanism responsible for the spontaneous fluctuations of a system is uncovered. An investigation of an application of the technique in measuring

---

magnetic properties of the spins in the Ni-Mn-In alloys reveals that the stochastic errors of experimental data are essentially from the spontaneous fluctuations of the magnetic moment.

Experimental results of the Ni-Mn-In alloys are consistent with theoretical prediction. The spontaneous fluctuations of the magnetic moment, as a result of nonthermal equilibrium, are

---

found in the systems examined in this work, which are orders of magnitudes smaller than those due to the thermal fluctuations. Chameleon (band) Chameleon are a dance music duo who work under the guise of a generic dance music duo. They are most famous for their 1986 hit single "White Lines (Don't Do It)". As a
