Cracked.Q: In Iscroll init/configuration - how to pass options from HTML In my HTML I have the following code: In my init method I am trying to run iscroll(document.g etElementById("myshow"), { paging: true, enableOverflow: true }); But the paging value is not being used. How do I pass this value into the init? A: I found my issue. The 'enableOverflow' value is not

available in init. So I need to do it in the config. Redirecting to . ./../../libc/unix/fn.sigaction.ht ml... location.replace("../../../l ibc/unix/fn.sigaction.html" + location.search + location.hash); In one of the more vivid expressions of Brexit-era self-hatred to be revealed so far, the nation's main trade union body has published a leaflet for members warning the EU referendum

## result means there is "not much point" joining the union. The union members are also told that if they are unhappy, the EU is "not the solution". But the tactic is unlikely to persuade many of the union members who voted leave, 2d92ce491b
