It is very easy to use and install. It comes with a logon screen and a lock screen, but also has an easy to use screensaver selection tool. I would definitely recommend Start ScreenSaver to anyone. Start ScreenSaver - in AppBrain -Reviewer: Bellingcat - 5/5 Great, free application Start ScreenSaver is a simple application, which has not much functions and is only useful if you have a laptop without keyboard and mouse and are too lazy to change anything on your computer every time you want to use it. -Reviewer: Daniel - 4/5 Good, simple screensaver Installation is straightforward, but you must also install the screensaver app as well in order for Start ScreenSaver to be able to start the screensaver. Also, there are no options available for customizing the screensaver you want to use. The actual screen saver is really nice and works really well. It is as if it were not free software. The only downside is that you must pay to remove ads. You can set it up so that it will only run once a day, and it will ask you to remove the ad so that it will only run once a day. If you prefer the other way, you can remove the ad and make it run every day. Start ScreenSaver is a simple application, which has not much functions and is only useful if you have a laptop without keyboard and mouse and are too lazy to change anything on your computer every time you want to use it. -Reviewer: Kazuya - 4/5 Great, free application Installation
