the framework structure of the criminal justice system—is designed for, and concerned with, aggregating together the results of a wide range of different academic disciplines. The new research does not replace any of the previously conducted research on problems in the criminal

---

justice system, but rather adds to that research with the help of each new methodological tool, and provides a systematic way to aggregate the results from all of the individual studies. The availability of the book is currently restricted to researchers and professionals in this field. To apply for a printed copy, please complete the academic registration form.

## Q: How to Display

# Nested Objects Using Java JSF

I have a question regarding a Java, JSF, and JSON question. It has to do with nested objects and it has me stumped. I am making a Java web application using Netbeans using JSON to pass information between pages. I am trying to send an object of an object to another
