Auto Save Rounded corners Export SVG Support for HTML5 canvas PNG Auto closing Unobtrusive Easy to use Antialiasing Extras Ratings Details TinySketch allows you to mark your browser's tabs as a backup on your PC. Just run the extension and it will monitor your latest browser window and save it by default. If you close or open another window, TinySketch will auto save the page and change the folder to which it saves the backups. For other browsers than Google Chrome, you can give TinySketch a try if you use Windows and the settings utility allows you to select "Save to folder." Steps: Step 1: Install TinySketch First, open "" in your browser. You have to sign up to save credits or use In-App purchase to keep the extension. Step 2: Select the folders where you want to save your tabs After installing the extension, you will see a button that allows you to set a folder for each of your tabs. This folder allows you to control the tabs you want to keep backup. Step 3: Unlock the extension If you are using In-App purchase, you will unlock the extension directly. Otherwise, you have to click on the unlock button to view the extension's settings. In order to use In-App purchase, you will need to enter your Google Account details on the extension's page. Step 4: Turn on automatic backups At the beginning, you will see an option to turn off the extension if you are not using it frequently. By default, it will automatically save the tab. Make sure to change this option if you want to manually make backups. Step 5: Enable TinySketch Click on the TinySketch icon on your taskbar. It is made of a small button that looks like a circle and is colored in the same orange shade as the extension's icon. You can then easily turn on and off the extension's panel to change the state of the extension. Step 6: Use it After you activate the extension, the panel will become available on your browser

TinySketch is a small tool for sketching in the browser and was designed specifically for use by those who need to rest their eyes. The tool comes with a small windows that allows you to draw and also automatically saves your sketches to your local storage. What is the alternative to TinySketch? If you are looking for the best alternative for TinySketch, I would suggest that you use Google Drawings. I have found it very easy to use and this app is definitely my favorite. TinySketch Download for Chrome Related Software 1 Comment MortenStenkobFebruary 12, 2016 Thank you for the review and an interesting extension. I myself consider myself a visual person and find it challenging to focus when it comes to doodling and sketching. My problem is that I do not have a touch screen but a mouse and a stylus. I think this is a problem that I cannot solve since I do not want to switch to a mouse but the extension TinySketch is a nice solution for me. Reply Your comment will be posted after it is approved.
