all his work; the Lord has given him a heart to judge uprightly and to act in the way of God. There is a photograph of him in his office at the Institute. It is like a portrait on canvas, with the owl and the laurel leaf of the Palazzo Reale, very well-coloured and rendered with great delicacy. But I like particularly a drawing of his portrait, made with a short pencil in order to know, with accuracy, the impression on the skin which the rages of his sickly age had left there. I found this drawing at the very beginning of my life in Florence, which I can hardly remember any more, because it was at the exact time when a long night was ending in an immense awakening and when the dawn was filled with the first rays of the sun and with the awakening of life, so many things rushed in on me at once, that I was completely bewildered. I forgot every one of them, and only there was left in my memory the drawing of the portrait: Da Ponti sitting in the pose and with the gesture of those sublime years which were mine; a man like André Gide who, during the same time, was passing from the direction of the north through France and Russia, escaping the guillotine, and who would certainly, if he had lived at that time, have known the face of Ponti and the face of the world, what it was and what it was becoming, if Italy had not inspired him. I imagined in him the personality of that Ponti, which I had forgotten, and that day I made the drawing. After some years, I was very surprised when, when I was saying goodbye to him at the Via Veneto, he offered me his hand for a long moment as I was leaving. You will understand me, dear Luigia. He did not need to say anything about the image of the man who had followed me through all those years and who was now in France: he knew well and had guessed everything. He was about to go home. I asked him to let me bring him back to the Teatro Valle to see the great opening of Macbeth. He resisted at first and was not willing, but in the end he agreed to do what was possible for him, and his voice was firm and didn't show any signs of the many months that he had spent in a bed of pain. It was his own voice that I heard, and I am happy
