Keep everything you touch secure and controlled on the Internet. Quickly share, get help, and restore items with the world. Cloud is fast becoming the new digital world. What is One-Time-Use Password? Most modern websites require that you specify a password to register on the website. If you use the same password for each and every website you log into, they can get your login details, change it for themselves, and login. They can also hijack your email account to send you ads and spam. This happens because an unique password is created for each and every website on the internet. The problem is, an unique password is hard to remember, and even when a password is not used for a long time, the easy and forgettable to make is. This is the main reason why we are making you specify a password for this website only once. But the problem is, once you register with this website you won't need the password for any site again, ever. This is where our One-Time-Use Password comes in. How to use One-Time-Use Password? When you first log in to the website, you will need to enter your email and password. You must click the link in the email we will send you right after you click the "Submit" button. If you don't click the link we will NOT be able to send you the One-Time-Use Password instructions. Once we send you the link, when you click on it, you will be forwarded to the Two-Step Verification page. This page will ask you to enter the 12 digit verification code, which you will get on the One-Time-Use Password. Once you enter the 12 digit verification code and click the "Submit" button, you have successfully registered with the website. You don't have to remember the One-Time-Use Password again for any website. You can use the login button with the verification code anytime. Touro Cloud Backup Pro is a handy and reliable software that provides users with a simple means of protecting their important files and folders and uploading them to the cloud.
